Important Scheduling Information

To ensure a smooth and successful competition day for all team members, only the designated call time will be provided on the schedule. Performance times will not be listed. All dancers are expected to arrive at the assigned call time, as this allows for proper warm-up, team preparation, spacing, and coach check-ins prior to competing. Arriving just before a performance time does not allow dancers to be fully prepared and can impact the team's overall performance. We appreciate your cooperation, support, and commitment to helping our dancers be fully prepared and competition-ready. Thank you for helping us maintain a positive and organized team experience for everyone.
